

W06-P1: Show nine photos

The screenshot shows a code editor and a browser developer tools interface. The code editor on the left displays the `index.html` file, which contains HTML code for a blog section. A red box highlights the `<div class="blogs-center">` element. The browser preview in the center shows a grid of 9 blog posts titled "Latest Blogs Using Breakpoints". The developer tools on the right show the `style_410650930.css` file with media queries for responsive design, specifically targeting screen widths of 800px and 550px.
